THE BOOMERANG.

WHAT THIS CRUDE WEAPON CAN ACTUALLY ACCOMPLISH.

Many of the Fables Told About It Exploded—The Cockatoo Story Made Out of "Whole Cloth"—There Is No Occasion to Invent Stories About the Uncanny Thing.

More has been written and less is understood of the boomerang than of almost any other weapon. It is generally known to be a flat stick of wood bent into a shape which suggests the combination of a V and a U, although with the extremities spread apart until they are at right angles with each other. In point of fact, boomerangs are of almost every shape, from semi-circular to nearly straight, and seem to depend for their efficiency not so much upon the evident form as upon the curves which are shown upon their flat sides. If one takes a boomerang and looks along its sharp outer edge it is seen that this edge presents a wavy appearance—a delicately adjusted sinuosity like the line of a long screw. This curve is not elaborately *fashioned or smoothed* into evenness; the hard wood of which the boomerang is usually made, being picked out with short blows from a sharpened flint held in the hand, almost always shows, indeed, infinite irregularities.

NO UNIFORM PLAN.

What rule of construction the savage artificer follows even he himself would probably be unable to say. Yet he has some definite plan in mind, no doubt, for while he chips and pecks away at the wood he takes frequent squints along its edge to see how his curves are progressing. I have never seen two boomerangs that were just alike, but all are similar in their relations of curves along the flat side. The boomerang maker knows instinctively just where his boomerang will go when he throws it, although he never seems to aim any two in the same way.

More lies have been told about the boomerang than can be well enumerated, and nearly every Australian traveler comes back with a fresh assortment. One hears of men who can so throw a boomerang that it kills an enemy behind a tree and then comes cheerfully fluttering back to its owner, who thereupon hurls it on a fresh mission of carnage. A flock of frightened cockatoos, speeding in intricate gyrations through air to escape the attack of natives who want a bird for dinner, are pursued at every turn by these erratic weapons, which strike them down a dozen each, and so return to the hand that cast them. Old wives' fables these, at which Australians laugh, knowing in the nature of things their falsity.

In the first place the war boomerang is not made for return, and is only slightly bent, so that it may go hopping and bounding along the earth like a hoop, and make capacious holes in the bodies of the adversary. These are of hard, heavy wood, and ugly things to be hit withal; but the return boomerang is simply a plaything, or to be used in light hunting, and although it might give a man a painful rap, could not seriously injure him. As for the cockatoo story, it has this much of truth, that a native boomerang hurler, if he saw a flock flying by him in a straight course, could so cast his weapon as to come upon them unawares at a given point in their flight, and, perhaps, knock one down—but his boomerang would drop, too, having no power of flight after it has struck anything.

WHAT IT WILL REALLY DO.

The boomerang is sufficiently remarkable without being regarded in the light of a long bow, and drawn by every tourist in the colonies. It is held perpendicularly and taken firmly in the hand by one of its extremities, with the other pointed forward, and is hurled with a full arm and assisted by a run and swing of the whole body. A slight turn of the wrist at the moment of discharge causes it to assume various erratic courses. Sometimes it will fly straight forward for 100 or even 200 yards, then rise sharply to a great height, lose its force, and flutter down to the feet of the thrower. Again, it will rise in the air, swoop down with immense rapidity, and skim around in a great semi-circle a few inches from the ground, rise once more and return to the spot whence it started.

It will also start off in a great swoop to the right, reverse it and turn to the left, skim around the thrower in a series of ever narrowing circles, and, finding their center, fall into it like an exhausted bird. There is something uncanny about the thing; its movements are so unexpected and out of reason that it seems to be alive and to take a savage delight in strange shoots and dashes, which make the "new chum" (Australian equivalent for "tenderfoot") dodge every time it turns lest it should knock him on the head.

The yarn about the Australian blacks always throwing the boomerang with their backs to the object they desire to hit is a piece of the same "whole cloth" as the cockatoo fable and the lie about the missile returning to its owner after killing the gentleman behind the tree. An expert thrower can cause his boomerang to shoot behind him after a short preliminary excursion in front, and come very near a given object; but if he really wants to hit anything, either in hunting or war, he doesn't fool away his time with the return boomerang, but throws the heavy, nearly straight one, which goes direct to the mark without any flourishes. Such is the boomerang—a two-formed utensil, with one shape used for business, the other for sport.—Cor. Springfield (Mass.) Republican.

Not a Physical Shortness.

"Mamma, that tall, fine looking young man leaning against the piano surely cannot be Mr. De Folter! I thought papa said he was short."

"Only in his accounts with the government, my love. But his securities made it all right, I believe, and he has since fallen heir to a gas well in Pennsylvania. Sh!—Mr. De Folter, my daughter!"—Chicago Tribune.

MARKSMEN IN THE ARMY.

THE DISCIPLINE THAT MAKES OUR SOLDIERS EXPERTS.

The Country Has Not a Large Military Force, but the Boys in Blue Are Remarkable for Their Facility in Handling the Rifle—How They Are Taught and Trained.

The United States has a very extensive territory, yet it has the smallest regular army of any civilized power of nearly equal territorial extent. Still, with American ideas and policy, the gallant little force seems amply sufficient to guard the country. Peace is so much the policy of our nation that even the small army finds little to do. The great Indian tribes have been corralled within their reservations, and the life of the United States soldier is now narrowed down to the stereotyped military code. Weary with the some old ceremonies from year to year, practiced until the regular tactics are absolutely perfect, they have developed the principal garrison duty, target shooting, into a science of remarkable accuracy. The pleasure of the practice and the spirit of emulation aroused combine to make them the most skilled marksmen in the world.

THEY BEAT THE WORLD.

The rifle used is the ordinary Springfield service pattern, a breech loader, carrying seventy grains of powder and 500 grains of lead, common service sights that never get out of order.

Our little army may be deficient in many ways, but in the matter of rifle shooting to hit and with the object of hitting to kill (the business in which the soldier is presumed to be particularly efficient), it certainly stands first in the world. Another great advantage, although not a pleasant one, has been continuous and almost everlasting stations on the remote frontier. Surrounded with large and small game, what wonder that men, whose business it is to kill, always seized every opportunity for hunting?

To be perfectly fair, our marksmen are so far in advance of the best European soldiers, that, so far as execution is concerned, the latter would have no show whatever when pitted against our own regulars. European armies, though armed with a longer range gun, yet lack practice and accuracy.

They are trained to volley shooting instead of individual aim, and the result is that fully half of the men fire at random into the air. Uncle Sam's man has to depend upon himself. European nations nurse their dislike of each other and their military training partakes of it. They pay more attention to hatching up new schemes to hurt each other than hitting the bull's eye. They are able to pierce, times without number, a target in the shape of an effigy of a French soldier, but would miss at every shot an American target. Neither the French, Germans, Belgians nor Russians have the skill of the Americans in sighting their guns or in handling their pieces.

Routine duty on the frontier is about as follows: The soldier gets $13 per month straight pay, rations, clothing, and a certain allowance which is paid him on the date of his discharge; an increase for each year's service or re-enlistment; additional remuneration if promoted corporal, sergeant or artificer; extra pay if worked as a carpenter, plasterer or mechanic, and lots of other perquisites too small to mention. Guard duty is the hardest in the service, and to this the soldier is eligible about one day in six.

SOLDIER LIFE.

Three roll calls a day, reveille, retreat and tattoo (if a cavalryman, stables twice a day); drills Mondays or Fridays, dress parade every evening, and target practice whenever weather permits. Each company in the service is provided with a pair of breech loading shotguns, a certain annual allowance of powder, shot, wad and shell, and these are open to everybody for hunting purposes when not employed on other duty. The soldier can then amuse himself knocking over jack rabbits, bagging sage hens and prairie chickens, and missing as many ducks and wild geese as he wants to.

Tours of detached service are merely picnics. Large game of some kind can almost always be found, and what better sport could any one ask? There is one undeniable fact about a five years' term in the United States army. All sorts of material are caught for soldiers; the beer drinking Teuton, the bull dog Englishman, the fun loving Irishman, the ignorant darky, and, in fact, men of all nationalities and all climes. They come to us as bright as meteors and as verdant as cucumbers; but no matter how green and unsophisticated the recruit may be when he joins, he has developed into a fine marksman when he leaves the army, and with decidedly more sense than he was enlisted with.

The bump of *fun is* exceedingly large in the average soldier of the line. Generally, as remarked, they are young men in the prime of manhood, of fine physique and perfect in every way (else they would not have been accepted by the recruiting officer), who look upon the term of enlistment as a sort of lark, and propose to get as much amusement and fun out of the five years as possible. Astonishing as it may seem, yet it is nevertheless true that it is no easy matter to enlist in the United States army. Nineteen out of twenty applicants are rejected for cause, and the twentieth man must be up to the mark, or he is liable to travel the road of his nineteen predecessors.

After enlistment expires a majority of the discharged soldiers, who originally came from some of the states back east, never return to their former homes. Civilization, with all its drawbacks, has lost its charms for them, and so they stick to the west and grow up with the country. Long service and extensive scouting over the plains have cured them of city life and a struggle for existence. They either take up land claims somewhere, buy farms from the railroads or drift to ranching or stock raising. Many of them prefer cowboy life, which a term of service in the army, saddle and scouting work especially equips them for.—New York Star.

SENSATIONAL MURDER.

A Comstock Miner Puts Six Bullets into His Wife.

Virginia City is evidently determined to be advertised liberally. Last Saturday evening Benjamin Jenkins fatally shot his wife at the family residence on North A street. There were no witnesses of the shooting except a two-year-old son of the couple.

Jenkins entered the house, and the landlady of the premises says he spoke roughly to the infant son. Shortly afterwards she heard two shots fired, followed by four more in rapid succession. Jenkins' wife ran screaming into the street, the blood flowing from her wounds and staining the floor of the hallway of the house and steps leading to the street.

Justice of the Peace Kehoe, living opposite, rushed into Jenkins' residence, where he found Jenkins seated on a chair with the pistol, still smoking, in his grasp.

The Justice placed Jenkins under arrest and took the pistol from him, which is a six-chamber thirty-two calibre.

Jenkins said he did not know what he did the shooting for.

His bleeding wife was led into the residence, when it was found six bullets had entered her person, two in the right arm, one in the right side, two in the back below the hips and one in the back just above the waist.

The woman is still alive, but the wounds are pronounced fatal as there is profuse internal hemorrhage.

Jenkins refuses to make a statement and his wife is too weak to talk. Jenkins is a miner employed in the Choller, and bears the reputation of an industrious man and was perfectly sober at the time of the shooting.

He is about thirty years of age and his wife is about twenty-five.

Last Tuesday Jenkins fired two shots in the upper story of his former residence on North B street, but his wife was not in the room at the time. The police requested her to swear out a complaint but she refused to do so, saying her husband fired the shots merely to frighten her. The shooting created intense excitement, crowds thronging the streets and discussing it.

EL RIO REY.

He Breaks the Three-quarter Record While Carrying 126 Pounds.

California claims the earth, and Nevada is expected to furnish the wire to fence it. The papers all claim Theo. Winters and his fast horse El Rio Rey, and the press dispatches always refer to both as of California. Mr. Winters is a resident of Nevada, and lives in Washoe Valley, this county. He is President of the State Agricultural Society, of Nevada, a position he could not hold a minute if he lived in California. However the following additional details of the great race El Rio Rey (The River King) recently won, as told by the Sacramento Record-Union, goes to show the "sack" Mr. Winters will have to spend in and around Reno, that the JOURNAL excerpts it, even allowing El Rio Rey was foaled near Sacramento:

The telegraph brings the news of another victory for the Sacramento colt, El Rio Rey. Yesterday at Morris Park, New York he won the rich White Plains Handicap. This was a sweepstakes of $100 each, half forfeit, with $5,000 added, of which $1,000 went to the second horse and $500 to the third. The race closed with 246 entries. Horses declared out on the day before the date for the race was named were taxed only $25, and those declared by August 1st only $10. It is impossible to tell when the declarations were made, but as eleven horses started there were 235 that paid forfeit. Possibly some paid the full half ($50); but, assuming that all got off with $10 each, the forfeits would amount to $2,350. This, added to the $1,000 put up for the ten other starters, and the $3,500 of the stakes that fell to the winner, would make his winnings $7,850. It is safe to say however, that the amount was nearer double that sum.

The distance was three-quarters of a mile, and the game Sacramento two-year-old carried the top weight of 126 pounds against the crack colts of the country. And he not only carried that extreme weight, but actually broke the record. Prior to this meeting, the fastest time was 1:13, made by Force (five years) at Louisville on September 24, 1883, carrying 121 pounds, and also by Tom Hood (four years) at Louisville on September 19, 1888, carrying 115 pounds. A few days ago Tipstaff broke this record down to 1:12 at Morris Park, and now comes the gallant son of Norfolk and Marion, cutting off another second while carrying 126 pounds.

This is a glorious victory for Mr. Winter's colt, which has met the best in the land, commencing at St. Louis and following the circuit through to New York, and without encountering defeat. While it looks as though El Rio Rey were capable of withstanding almost any penalty that odds could put upon his future efforts, still it would be expecting too much of him to assume that he will not have to lower his colors before the season closes. The best of horses are liable to have "off" days, and these may yet come to him, but thus far he stands peerless in the annals of the turf—the equine sensation of the year. Sacramento is proud of El Rio Rey, and his owner is to-day (in some quarters) regarded as a bigger man than the President.

El Rio Rey can carry 140 pounds and beat any horse in the world any short distance race.

"School for Girls."

The Bishop's School for Girls begins on Wednesday at 9:15 A. M. Miss Megquier, the new principal, and Misses Massie and Euirs, the new teachers, have arrived. The tuition for day pupils has been considerably reduced, and the school is prepared to do excellent work. German will be taught without extra cost by a lady who spent four years in Dresden, while the department in mathematics will be taken by a lady who was for some years instructor in this department in a young ladies' college in the East.

The Lyon County Times says nearly all the wells in Dayton have dried up. Water is a luxury there nowadays.

EDWARD HARRIGAN.

The Distinguished Comedian to Present "Old Lavender."

The box sheet is now open at Nasby's for the one night engagement of the polished comedian, Edward Harrigan, billed to present his pleasing original drama, "Old Lavender" this evening. Mere mention of the above coming dramatic event is sufficient to attract a crowded house to welcome the first comedian on the modern stage.

Mr. Harrigan will have the same support that sustained him during an eight week's successful engagement just concluded in San Francisco. Braham's splendid orchestra from the Park Theater, New York, accompanies Mr. Harrigan and will present an attractive musical programme.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. WHAT ON EARTH

Is the reason people will not, can not or do not see any difference in cheap nostrums put up by Cheap John houses or irresponsible parties at enormous profits rather than take a medicine of world wide reputation and one that is giving universal satisfaction at actual price? No medicine in the world is giving such unparalelled satisfaction for purifying the blood as BEGG'S BLOOD PURIFIER AND BLOOD MAKER, and every bottle that does not do its work will cost you nothing.

CAPTURED.

The Bidwell Stage Robber Caught.—A Brave Sheriff.

The man who robbed the Bidwell stage on the evening of the 27th, ult. was captured yesterday by the brave Sheriff of Lassen county, California, at Big Meadows west of Susanville, on the road to Oroville. The Sheriff had caught up with his man and ordered him to halt, but the fellow commenced shooting and fired three bullets into the Sheriff, severely wounding the officer, but that nervy official, whose own gun was out of order, marched right up to the fellow and struck him over the head with the pistol, and knocked him senseless. The Sheriff thus became master of the situation and the man, and finally took his man to Prattville. He was afterward taken out to find the spot where he had secreted his ill-gotten gains.

Bank Examiner.

The Comptroller of the Currency has appointed Wm. H. Chamberlain, of San Francisco, Examiner of National Banks, vice G. W. Cassidy, whose resignation is accepted, to take effect October 1st. The Nevada delegation recommended Dr. G. H. Thoma, of Reno, for the position, but California and Maine seem to gobble all of Nevada's good things.

Still for Reno.

The Tuscarora Times-Review says:

Three young ladies departed for Reno this morning to re-enter school, having spent vacation here with their parents.

OPERA HOUSE DRY GOODS STORE.

THE OPERA HOUSE

Dry Goods Store.

This store is now being generally known all over the State of Nevada as the popular

ONE PRICE

Dry Goods House, and its proprietor, C. W. Booton, is well known as the

Revolutionizer of Prices and Readjuster of Values

—IN—

STAPLE & FANCY DRY GOODS

GENTS' FURNISHINGS,
HOUSEHOLD FURNISHINGS,
READY-MADE CLOTHING
And BOOTS AND SHOES.

Please note the various reasons by which I claim I have advantage over all competing houses:

1st. I BUY FOR CASH, and cash only.

2d. I VISIT THE MARKETS IN PERSON, frequently, and buy my own goods myself, for the lowest possible SPOT CASH PRICE.

3d. MY AIM AND AMBITION IS BIG BUSINESS, quick sales and small profits. This is what I claim and what I hustle for. Having this object in view—to give everybody good value for their money—success is already achieved, as I challenge anyone to dispute that I make the lowest prices.

4th. MY STORE IS THE THE LARGEST AND BEST LIGHTED of any in the city—the three large plate-glass show windows which ornament the building would do credit to any large store in a large Eastern city, light being of great importance in any well-regulated store.

5th. I ENGAGE THE BEST AND MOST EXPERIENCED AND SKILLED SALESMEN that can be found in this country. W. R. Lett has full charge of my store; his experience is second to none in this country, having had charge of departments for many years in the leading houses of New York City.

6th. I DO JUST AS I ADVERTISE; I do not advertise my goods at cost, as no intelligent person could swallow so silly an announcement as that. Nevertheless many of our merchants of to-day advertise under the head of selling goods at cost.

7th. ALL GOODS ARE MARKED IN PLAIN FIGURES, and no goods are misrepresented.

HAVING GIVEN SEVEN REASONS WHY I LEAD ALL COMPETING houses in prices, I will venture still further to convince the general public by mentioning the contents of the different departments, thus showing that I carry an enormous and well-selected stock, which can only be fully realized by calling and examining the goods of the different departments.

In the Colored Dress Goods Department

I keep all the leading shades in plain colors, including fine French Cashmeres, French Camel's Hair, Beatrice Cloths, French Foule, Tricot Cloths, Tricotine Cloths, Albatross, Nuns' Veiling, French Debeiges, Fancy Striped Alpaca in plaids and stripes. I keep all the leading patterns found in the market.

The Black Goods Department

Is well stocked with all the latest and best-known brands of French Cashmere, French Camel's Hair, French Soliel, Albatross, Nun's Veiling, Sicillian Cloths and all the leading brands of Black Alpaca, Black and Colored Silks in all the different makes.

The Corset Department

Receives special attention, as I carry all the leading makes, including the famous C. P. Corset, and also the P. D., which I sell at prices that defy competition.

The Kid Glove and Button Department

Is replete with all the shades that can possibly be obtained this side of the Rocky mountains.

The Hosiery Department

Deserves special mention, as I have been supplying it during the past two weeks with the very best brands of Ladies' Cotton and also Wool Hose that are manufactured on this coast. My stock of Ladies' Misses', Children's and Men's Hosiery is unsurpassed in the city. Passing on we come to the

Shoe Department.

This is a special branch that I have added to my business by special request of my customers, who continually urged me to put in a stock of Boots and Shoes, claiming, as they said—I using their own language—they were tired of paying high prices any longer. I subsequently ordered the above stock, and will say that my success in that department has superseded all my expectations. Men's and Boys' Shoes a specialty. Men's Shoes from $2 50 up.

In the Clothing Department

I cannot do it justice by venturing to describe the success that continually attends it. I can only add one passing remark—that the amount of clothing I have sold during the past year is a just guarantee that the public never fail to appreciate a ONE PRICE cash business. I sell suits for men from $5 up.

In the Underwear Department,

Including Ladies' and Gents', I positively state that I sold more of these goods last season than any two competing houses. Knowing this, and then looking forward for an enormously increased trade in this line this coming Fall and Winter, I have spared no pains and have left nothing undone to secure one of the largest and best-selected stocks of Underwear ever brought to Reno. This true assertion will be more forcibly strengthened by anyone doubting it to call and examine the stock.

In the Domestic Department

I carry all the principal makes in Sheetings, Pillowcase Muslins, etc. Ginghams and Calicoes in endless variety.

Thanking the People of Reno and the Public in General for their Kind Patronage for the Past Year, and Soliciting a Continuance of the Same, I Remain, Respectfully,

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee -The Aristocratic Avenue Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with $300,000 capital, and the First National Bank with $200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

TEHAMA COUNTY,

10,378 27-100 Acres.

Township 25 N, Range 7 W, Mt. Diablo Meridian.

This township lies on the eastern slope of the **Coast Range** of mountains, and from 13 to 20 miles west from **Red Bluff**, the county seat of **Tehama County**. The field notes of the U. S. Surveyor who laid out this township, says: "This township is well adapted for grazing, as it affords pasturage for large herds of cattle. It is well watered by the various tributaries of **Elder Creek**. It is also very valuable for its timber, which consists of a heavy growth of yellow and sugar pine, spruce, and cedar. There is a heavy undergrowth of chaparral, chemical and manzanita." The seven sections are in most instances government land, so that the parts most valuable as adjuncts to this range might easily be secured at government price, namely $2.50 per acre for single quarter sections.

In Section 9, coal was discovered recently by some herders, but nothing has been done to develop the mine, although samples which have been tested show the coal to be of excellent quality.

We are assured that a Railroad heading for the Coast, and running through the Coast Range timber belt will be built very near this ranch. Price for the whole, consisting of 10,378 27-100 acres will be $35,000.

All entries to be made in writing, to give sex color and marks of horses. Also name and residence of owner, and in running races colors to be worn by rider, and any other particulars that will enable the audience to distinguish the horse in the race.

Write "Entries to Races," on outside of envelope and seal.

Entrance fee ten per cent of purse, to accompany entries.

In all races, 5 or more to enter and 3 or more to start.

National Association rules to govern trotting, but the Board reserves the right to trot heats of any two classes alternately, if necessary to finish any day's racing, or to trot a special race between the heats, or change the order of races advertised for any day.

Unless otherwise ordered by the Board, no horse is qualified to be entered in any District race that has not been owned and kept in the District six (6) months prior to the day of the race, and any entry by any person of any disqualified horse shall be held liable for the entrance fee contracted, without any right to compete for a purse, and shall be held liable to penalties prescribed by the National Association and Rules of the State Agricultural Society and expulsion from the Association.

If, in the opinion of the Judges, any race cannot be completed on the closing day of the Fair, it may be continued or declared off at the option of the Judges.

In all races noted above, five or more paid up entries required to fill and three or more horses to start, but the Board reserves the right to hold entries and start a race with a less number and deduct a proportionate amount of the purse.

When less than the required number of starters appear they may contest for the entrance money, to be divided as follows: 60% to the first and 33⅓ to the second.

Rules of the State Agricultural Society to govern running races except where conditions named are otherwise.

The Board reserves the right to change the order of each day's races.

Any person not intending to start his horse must notify the Secretary in writing on or before 6 o'clock the evening previous to the day of the race.

Horses entered in races can only be withdrawn by consent of the Judges.

For a walk-over in any race a horse shall be entitled only to his own entrance fee and one-half of the entrance received from the other entries for said purse; and a horse winning a race entitled to first money only, except when distancing the field, then entitled to first and third moneys only. A horse wins but one money under any other circumstances.

The attention of all parties interested is particularly called to the rules of the National Trotting Association, under the provisions of which, except as otherwise specified, all matters appertaining to the trotting races will be conducted
